

Resilience

Coastal Resilience

Dorset's coastline is managed by various organisations alongside our rangers, including National Trust and Dorset Wildlife Trust

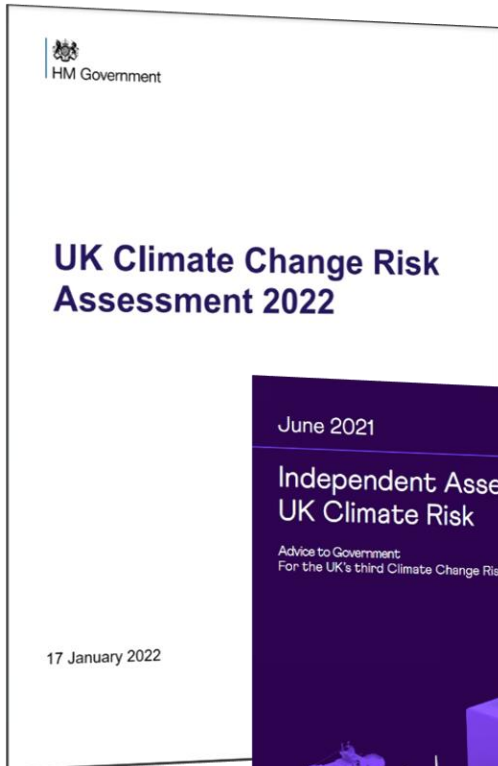

Building Resilience in Communities (BRIC) Weymouth project is connecting communities, policy makers and flood expertise.

Dorset Council hosts the Dorset Coast Forum, an independent strategic coastal partnership, which looks at the long term, broad-scale issues

£2.5 million in funding was secured from the Environment Agency to stabilise, protect and repair the Cobb in Lyme Regis

Climate Change Risk Assessment

Third UK Climate Change Risk Assessment (CCRA3) was released in 2022

Third National Adaptation Programme (NAP3) will be released this spring

Dorset Council is developing its process for measuring its climate risk internally

With the goal to develop a county-wide CCRA with stakeholder engagement in the future
